

We are here to support the local community in and around Debden and to help people who may be feeling isolated, lonely or vulnerable at this time and during the weeks ahead.

We want to ensure that every resident in the village is being cared for and feels safe.

If you are following government guidelines and either self-isolating or social distancing we are happy to help with any of the following:

- A phone call for a friendly chat
- To pick up shopping
- To collect your prescription
- To post a letter or parcel

If you are a key worker, including Healthcare and NHS, let us know if you need any support.

Due to the contagious nature of Coronavirus (COVID-19) we cannot pop in for a chat and all deliveries and collections will be left on your doorstep. We have a list of friendly neighbours and residents within the parish who have volunteered to help.

Please keep this notice pinned up or safe in a drawer in case you need us.
